

Mur-Lok™ Flexible PVC Tubing

Mur-lok™ Flexible PVC Tubing is designed for low pressure applications, including water softener drain line. The 1/8" wall thickness provides excellent resistance to kinking and cracking. The black tubing has inherently good UV resistance and can be used for outdoor installations.

Made in the USA

Tubing Specifications

Wall Thickness	1/8"
Working Pressure	40 PSI @ 70° F
Maximum Operating Temperature	170° F
Brittle Temperature	20°F
Shore Hardness	80 A

Tube OD	Tube ID	Length	Color	Part Number
3/4"	1/2"	150' Coil	Black*	L1201506
			Clear	L1201507
7/8"	5/8"	100' Coil	Black*	L1401006
			Clear	L1401007

* Black tubing is UV resistant

Applications

- Water & Fluid Lines
- Air & Gas Lines
- Chemical Lines
- Pharmaceutical
- Food & Beverage
- Instrumentation
- Laboratory & Research
- Material Handling
- Medical
- Protective Jacketing
- Pump Feed & Discharge
- Refrigeration

Note: Please contact customer support for information on using Mur-lok™ PVC tubing with chemicals or aggressive liquids.
